Courageous Integrity - Be Curious - We Care - Better Together - Show Your Fire

Good afternoon Everybody!

Hope you all have had a great summer. Fall semester starts in less than a week and the campus is already back to life with students out and about.

As always, please let our team in Asset Management assist however we can in your Inventory, Receiving, and Surplus needs. We're here to support you as best as we can.

Today as we are at the start of the new semester, I wanted to pass along some tidbits of information, that will help us to best help you:

1. If you return an asset to a vendor for warranty, wrong item, just didn't need it, or any other reason, please notify Asset Management so we can remove it from the inventory system.
2. No personal packages are to be sent to Central Receiving, this includes personal items purchased through Amazon.
3. If you make a purchase that is to be a part of another existing asset, please note that on the requisition and include the current asset tag number.
4. Please mention on a requisition if the purchase order is a payment p/o.
5. Make sure vehicles are not parked in or blocking the loading dock areas except for loading and unloading.
6. If you are trading in items on a purchase please complete and submit Trade-In Worksheet from the Asset Management website. Also add a comment line on the requisition with the trade-in allowance and tag numbers if applicable.
7. If a department's designated inventory coordinator position becomes open, please notify Asset Management as soon as possible with replacement personnel.
8. Ensure that requisitions have the delivery point of contact and the correct delivery location.
9. Please make arrangements ahead of time for oversized shipments, Central Receiving has limited resources for offloading and/or moving very large items.
10. Check out our website at AssetManagement.unt.edu for tons of valuable information, from forms to submit, surplus procedures, inventory best practices, to archived Eagle Eyes.

THANKS!

Big thank you to those who submitted their FY25 Annual Physical Inventory Certifications early, we now have 100% reported.

If you have been notified to update custodians or locations please do so as soon as possible.

Please remember staying on top of "knowing what you got and where it's at all times" throughout the year will make next years inventory go smoother!

13. Delivery location and Ship To Bldg/Rm on the requisition should match to where the final delivery point is to be.
14. Lines and quantities on requisition should match quote.
