Designated Inventory Coordinator training?

To gain access to the Asset Management system, you'll need to complete the Inventory Coordinator Training found here. This training does expire and is required to be completed annually.

The training is composed of three separate sections:

1. Submit the Designated Inventory Coordinator Form: **this form must be submitted via the training platform.** We cannot bypass this checkpoint.
2. Complete the training: this section takes about 40 minutes to complete and covers all aspects of the Inventory Coordinator role.
3. Request Access: Although you may already have the necessary access in EIS, the training is not complete until you click "request access".
