## Executive Summary

At the end of Q2 FY2024 UNT Total Revenues, excluding transfers, have exceeded prior year by \$62.6M (8%). Net Tuition & Fees up and Sales of Goods & Services are up due to increased Non-resident graduate and undergraduate enrollment. These increases were offset by a schedule shift, adding more class days in August, causing more revenue to be classified as earned in FY23. Also contributing to increased revenues are State Appropriations; for the FY24/25 biennium UNT received an additional \$1M in HEF funds and \$19M in state appropriation. Current % Received, to anticipated budget, is as forecasted. With the passing of Texas University Fund (TUF), year end appropriations have been increased \$15M.

Total Expenses, excluding transfers, have exceeded prior year by \$28M (3%) Personnel costs are trending higher, \$17.8M year over year, due to increased enrollment demands (Faculty Salaries & Student Assistant Wages) and merit increases. M&O, Scholarship and All Other Expenses are each a few million over prior year levels, with Scholarships having the highest variance at \$6M due to increased Pell grants. Current % Expended to annual budget is as anticipated, with only M&O trending a little higher. Spending in Salaries and M&O have increased in accordance with TUF requirements.

Total Transfers, netted to Transfers Out in both FY23 and FY24, are up for FY24 \$14M. This increase is driven by CCAP funding and a transfer of HEF funding additional projects this fiscal year.

<sup>\*</sup>Revenues include transfers in, Expenses include transfers out
